

BLUE DIAMOND GROUP

COMPANY PROFILE

CEO MESSAGE

Having a legacy in UAE for more than 26 years, I am much privileged in addressing our beloved clients and customers through this message.

Blue Diamond Group was set up in the year 1995 to the fast-expanding and discerning market. We always look forward to new challenges, innovations, and expansion of our services in this vibrant market to satisfy our customer's needs. Ultimately, we value the needs of clients their business relationship, and their reputation.

Blue Diamond Group is a fast-evolving service provider, with all in-house facilities to offer to our valued clients. Our uniqueness from other service provides is that we have all services under a single roof.

We Started with General Maintenance, Security Services, Pest Control services, Facade cleaning, General cleaning, Interior Fit-Out, Renovation works, etc. With customers on-demand, its expanded business to all emirates at a higher level. Now it's the best-preferred Facilities Management with more than 50+ services. It comprises Rope Access Cleaning, Grease Trap Cleaning, Biological Dosing, Kitchen Hood Cleaning, Drain Line Jetting, Life Guard services, etc.

Our portfolio is being developed to meet the fast-paced changes in the facilities industry so that we can meet the demands of upcoming projects and protect our customer assets, people, and business.

We pride ourselves on our valued employees – their skills, experience, and creative thinking provide the cornerstone of the services that we offer in our approach to meeting our client needs.

We celebrate individuality and respect the differences of our varied teams. We are united by our difference and this means that our people flourish in an environment that allows them to produce and be their very best.

Our long-term goal is to create employment for those who are talented and eager to learn. Besides this, we need support from our valued clients.

We trust that you will soon have a need for one of our services and we look forward to welcoming you onboard.

SOFT SERVICES

Soft services is one of the most important part of the facility management. Soft services include management, inspecting, and testing of equipment. Our soft services are divided into four division. These are:

1. Cleaning Division
2. Pest Control Division
3. Security Division
4. Landscaping Division

1. Cleaning Division

There are many services included in the cleaning division. Our cleaning services are mentioned below

General Cleaning & Deep Cleaning

General Cleaning

General Cleaning is like a routine cleaning. We are using trained manpower and latest technology to clean all areas. This cleaning keeps all the areas neat, tidy, with good air circulation, odorless surroundings, etc. For this cleaning, we will use a mop trolley, broom, dustpan set, etc.

Deep Cleaning

A Deep Cleaning is more detailed than general cleaning, this cleaning offers to remove the bacteria and germs and provide disinfection to all areas. We are using various nontoxic chemicals like floor cleaning, steel cleaning, glass cleaning, liquid bleach.

Blue Diamond General Maintenance team has a huge and trained team for handling all types of cleaning. All our staff are well trained in-house and provided with practical knowledge.

Facade Cleaning of High-Rise building with Rope Access or Cradle

The facade cleaning process makes the front part of a building clean from dirt, grime, stains, and pollutants. The cleaning makes the building clean, attractive, and free from dirt.

For Facade cleaning, we are using two methods as below :

- Rope Access Cleaning
- Cradle

We have a professionally trained team for handling such type of challenging jobs. All our team are certified by IRATA. They are well experienced in using rope access equipment or cradle.

External Glass Cleaning with Boom Lift or Scaffolding

External Glass Cleaning with boom lift or scaffolding helps to clean the glass from dirt and pollutants. A boom lift helps to clean at heights. Similarly, Scaffolding comprises a temporary platform for cleaning the buildings.

Blue Diamond General Maintenance provides customers with safe services and ensures team safety. Our team uses modern technology and is well trained to perform the cleaning. Cleaners are experienced and certified for glass cleaning.

Water Tank Cleaning & Pipeline Disinfection

Pure water runs our life and it is the most important part of our living. As water tank is the main source where the bacteria grow, breed, and multiply. BLUE DIAMOND is approved by **Dubai Municipality Food Control Department** for water tank cleaning. We are using DM-approved chemicals and different equipment like pressure washers brushes etc. Our cleaners are certified holders of water tank safety and trained for confined space entry. We perform the **Microbiological test, Legionella test, and TBC test** which can also be conducted on the request of the client. Our team uses PH meter to check the PH level of the water.

Property Disinfection & Sterilization Service

Disinfection removes all pathogenic organisms and Sterilization is the process of killing or removal of all harmful organisms. Cleaning and disinfection are carried out as per the '**Cleaning & Disinfection in Built Environment**' processed by **Health and Safety Department, Dubai Municipality**. Our team perform the process by steady sweeping using damp mopping pad, wipe out all frequently touched areas. Besides this we also use ULV machine for the areas which are hard to reach during disinfecting process.

AC Duct Cleaning & Sterilization

Blue Diamond is one of the best Facility Management Companies in Dubai for AC duct cleaning. It is the process of the removal of dirt, slime, mold, debris, and other materials found in the duct. Ac duct is the perfect place for bacteria, germs, dust, solid particles, molds, clogs, etc. Our team uses all safety measures which are necessary for cleaning & Sanitation. For cleaning, we are using Roto machine, fogger machine, chemicals for sanitization. We are **NADCA** approved company for the AC duct Cleaning.

FAHU, AHU, FCU Cleaning

Blue Diamond provides **FAHU**(Fresh Air Handling Unit), **AHU**(Air Handling Unit), **FCU**(Fan Coil Unit) cleaning. Air ducts are the source of both the hot & cool air traveling in your place. So, it should be handled very carefully and professionally. Our team uses the latest equipment & are providing 100 % satisfaction to our clients. We are using the latest equipment and are providing regular services so that it is maintained for long.

Kitchen Hood, Duct, Exhaust & Ecology Unit Cleaning

The kitchen is the most essential part of our home or restaurants hotels etc. So it has a high chance of getting grease and dirt inside these hoods, ducts, exhaust, and ecology unit. We follow **NFPA96** standard (National Fire Protection Association) & Civil Defence code for this cleaning. Various tests like **Wet Film Thickness Test**(WFTT) for grease and **Deposit Thickness Test** (DTT) for harder substances.

Our team uses chemical, steel wool, protection plastic sheet, scrapper for cleaning the hood and surroundings. Blue Diamond team is professionally trained in-house and is also provided with practical knowledge.

Drain Line Jetting

Drain lines, if not cleaned will result in a huge problem. As it will cause drains line blockage. And also the odor will cause difficulties for people living around. It's a method of cleaning blocked drainage by using high-pressure water streams with a particular jetting nozzle to adjust the pressure. Therefore it removes solid wastes such as overtime fats, oils, and grease FOG coats thicken, and accumulates inside pipelines, and makes the water flow smoothly.

Blue diamond General Maintenance provides regular drain line jetting. We provide drain line jetting on an emergency as well as contract basis. Our team uses modern technology which removes all kinds of blocks and residues from drain lines.

Grease Trap Cleaning & Biological Dosing

Grease traps are an essential part of any commercial kitchen or food processing plant. Cleaning of grease trap ensures removal of harmful greases, fats, and oils that are captured.

Blue Diamond General Maintenance is a **Dubai Municipality-approved** Grease Trap Cleaning Service Provider. We will remove the Fats, Oils, and Greases and clean out grease and clean out grease traps professionally & efficiently. Our team performs biological dosing which is eco-friendly and safe.

Marble, Tile, Parquet Polishing & Crystallization

Crystallization is used to polish and maintain a shine on marble surfaces. Above all, Blue Diamond General Maintenance uses these techniques in polishing and crystallization for all types of floors like marble, tiles parquet, etc. However, this process is carried out only by our special team. Our team also removes scratches on the surface and also makes the surface shiny.

Services Offered:

- It consists of spraying a fluid onto the marble floor and buffing it in with a diamond scrubbing pad under a buffing machine.
- Protects the surface of the stone, adds shine, and may even harden the stone, increasing its wear.

Carpet, Sofa & Upholstery Shampooing

Carpet, Sofa, and upholstery shampooing means to eliminate dirt and stains on rugs, carpeting. Blue Diamond General Maintenance has in-house trained team to clean all your carpet, sofa & upholstery. For cleaning, our team uses brushes, carpet shampoo, vacuum, pre-spray, defoamer. It removes odour, germs, viruses, microorganisms, stains, dirt, etc.

Chandelier Cleaning & Installation

Chandelier cleaning involves taking off all the crystals and globes, so they can be cleaned individually. The chandelier is a decorative piece to enhance beauty. Some type of chandelier has precious stones, glass, crystals, etc., So it should be cleaned regularly to maintain its shine. For cleaning some essential equipment like step- ladder, lint-free cloth, lint-free gloves, etc.

Blue Diamond General Maintenance has a trained team for cleaning the chandelier. We offer service all over U.A.E for residential and commercial sectors.

Steward, Housekeeping & Concierge Services

Steward

Steward Services, designed to keep your kitchen neat and tidy. Stewards are mainly responsible for the cleanliness and sanitizing of all surfaces. Above all, they are responsible for keeping the kitchen equipment clean.

Housekeeping

Housekeeping is the work or activity of cleaning. It refers to the management of duties for the running of a household. In other words, It may include cleaning, cooking, home maintenance, shopping, and bill payment, etc,

Concierge

A concierge is an employee who handles all the tasks of a multi-storeyed building and is fluent in English and Arabic. We provide service to both commercial & residential properties.

Blue Diamond General Maintenance provides a professionally trained steward, housekeeping services, concierge. As they can maintain nearby surroundings neat and tidy.

Road Sweeping, Parking lot & Common area cleaning

Blue diamond General Maintenance offers road sweeping, parking lot & common area cleaning. Regular cleaning removes debris and reveals areas where repairs are needed. However, we have a huge trained team to provide the best service to the customers. We deliver the highest level of service. Our team is available any time. In addition, we are available 24/7 for service.

Swimming Pool, Steam & Sauna Cleaning & maintenance

Swimming pool cleaning will keep the pool hygiene, safe and crystal clear. It should be cleaned regularly so that the swimming pool will be in its best possible condition. Along with the swimming pool cleaning, our team also clean sauna and the steam room.

Blue Diamond General maintenance offers regular cleaning and maintenance of the swimming pool. Our technical team is trained for cleaning and also provides the best service. We use modern and right equipment non -toxic chemicals, pool filters, chlorine, pool brush, vacuum head, and hose, etc.

Sump Pit Tank Cleaning

Sump Pit Tank cleaning is usually used to collect rain, storm, groundwater. The Sump Pit Pumps are used to drain out the water in the sump pit tank, but if the tank is not cleaned frequently then dirt and debris are accumulated and the drain lines get blocked. After that, it causes a bad odor and overflow of the drain lines. Blue Diamond General Maintenance provides the Sump pit Tank cleaning service.

2. Pest Control Division

Pest control or pest management is a process wherein one eliminates or manages unwanted creatures like pests. These Pests cause massive damage to our property as well as it will create an unhealthy environment. Below are types of pest services:

General Pest Control

Cockroaches: Cockroaches mainly have infestation of two categories **German Cockroaches and American Cockroaches** in UAE. These are fast-breeding insects that can survive in the most adverse conditions. These are mainly seen in dark places that are wet and warm like pipes, drains, etc. Blue Diamond Pest Control team uses gel baits, monitoring Traps, sprays which are approved by **Ministry of Water and Environment**.

Flies - Flies mainly have two species **Houseflies and drainage flies infestation in UAE**. They are considered to pose a health risk to humans, pets, and livestock. Our team can guide well to get rid of that by chemicals and mechanical control.

Mosquitoes- Mosquito bites are very painful and cause various types of diseases like Malaria and Dengue. They breed on stagnant water in the house or in the surroundings.

Ants: Ants species survive in sunny climates and they will crawl in wide range in search of food from their nest.

Blue Diamond pest control team is experienced, fully trained in providing pest control solutions for residential and commercial buildings.

Bed Bugs: Bed bugs are most common in causing itching and also allergies to humans. These may cause skin infections too. Deep cleaning with the use of insecticides will help to keep bedbug numbers under control, however, professional bed bug control treatment will be required to eradicate the infestation. Blue Diamond Pest control team helps you with the removal of these bedbugs by residual sprays which are approved by the **Ministry of Water and Environment**.

Rodent Control

There rats species and mice are the carriers of organisms of Typhoid, Dysentery, and Rabies. Here in UAE mainly have infestation of three types **Norway rats, Roof rats, and House rats**. They have been among the most persistent and damaging pests as they damage electrical systems, contaminate food, damage properties like furniture, books, clothes, etc. Blue Diamond Pest control team uses snap traps, glue traps, Rat cage & RBS with poison Bait, etc. as required based on inspection

Termite Control

The most economically important wood-destroying organism in the world. There are two types of treatment **Pre-treatment and Post-treatment**. Blue Diamond Pest control expert on team pre and post-treatment of the premises for subterranean termite. We are approved by **Dubai Municipality** and uses environment-friendly termiticide which has long last barrier.

Bird Control

Birds may not be harmful like rats and rodents, but they can cause huge damage to the properties. They damage the properties like, dislodge roof tiles, making nests, creating unwanted noise, etc. Blue Diamond Pest control team is trained to remove these birds. We use bird repellents, bird gels, Bird spike, etc.

Snake Control

Snakes are a rare problem to encountered in UAE . Also, some snakes are poisonous and non-poisonous. Blue Diamond Pest Control team is well trained on snake control.

Cat Control

Cats are not harmful to human beings. However, it's not acceptable in the food preparation areas especially near hotels, hospitals, etc. As they cause problems with noise and smell. Blue Diamond uses cat cages to catch the cats and handover to the **Veterinary Section of Dubai Municipality**.

3. SECURITY DIVISION

Blue Diamond Security Services – The most pre-eminent security company operating throughout Dubai. Approved by Security Industry Regulatory Agency (SIRA). All our guards are trained by SIRA approved agency.

SECURITY GUARDS

Blue Diamond security services ensure that all our client's security needs are confidently met by excelling in the selection, training, discipline, professionalism, and management of all multinational employees.

All our security guards are trained and certified in basic fire fighting, First Aid, emergency evacuation, risk management, self-defense, search, and emergency procedures.

Our training and development process ensures that all our security guards shall demonstrate on following principles:

- Smart and presentable appearance.
- Reliability at all times.
- A commitment to the highest standard of client care.
- Trustworthiness and honesty.
- A verifiable employment and educational record.
- Good judgment and self discipline

LIFE GUARDS

Life Guards are essential in case of safety measures. Lifeguards work at recreational and therapeutic swimming facilities.

Lifeguard duties include:

- They are monitoring the weather conditions.
- Keep the swimming areas free from dangerous items and debris.
- Ensuring the full safety of the swimmers.
- They are responsible for teaching swimming classes to all people of all ages.

4. Land Scaping Division

Blue Diamond General Maintenance provides installation and maintenance of CCTV and Access Control. We provide access control suited for the office, and commercial spaces, be it small, medium, or large facilities. Hence, ensuring the safety of each one.

Water Heater Installation & Replacement Services

Water heaters need regular servicing which will ensure clean and safe water. Regular maintenance keeps the unit more efficient, and it will last for long run. Otherwise, its performance will eventually drop. Finally, the entire system will fail.

Blue Diamond General Maintenance offer regular maintenance to ensure that consistent performance for a longer time. We provide service like Supply and Installation, Checking the leakage, Checking the heating condition.

2. Contracting & Interior Fit-Out Division

Charminar Contracting LLC - The new division was developed and managed independently by Blue Diamond Group. Our well-experienced architects and project engineers will take care of all designs. In addition, we handle rebuilding requirements, control each assignment from planning and design to handover. Below are the services offered:

- Interior Fit-Out
- Renovation Works
- Painting Services
- Carpentry & Flooring Contracting
- Partitions & False Ceiling Partitions
- Glass / Aluminum Installation & Maintenance

Interior Fit Out

Our well-experienced architects with project engineers will handle the design and building requirements. Our team is dynamic and gets involved in different parts of each project. The team produces designs to suit your requirements in a cost-effective manner. Above all, our main strategy of success is to provide the best service to the customers.

Our team strives to ensure that each design approach is crafted, structured, and designed so that each design will be unique and creative.

Renovation Work

Renovation is the process of restoring back to give a fresh look of the premises. We provide all types of custom-made furniture as per the customer's requirement. We take care of all approvals and certifications and adhere to the regulations of Dubai Municipality. Our designers and engineers deliver innovative, creative, and budget-friendly spaces. We provide both small and large-scale refurbishment to all our customers.

Painting Services

We provide interior and exterior painting of the offices and buildings, with customer satisfaction. We also undertake interior wall painting, ceiling painting, and exterior painting. We have more than 20 years experience in apartments, villas, townhouses and commercial building painting we also help the clients for choosing the right color to suit the taste.

Carpentry & Flooring Contracting

Our team undertake the best Carpentry & flooring contracting. All types of custom-made furniture include conference tables, reception counters, office desks, chairs, doors wardrobes, specialized kitchen cabinets, etc. We have a trained team who are capable of installing new floors in a variety of ways. We design and construct door and window frames following the high standards of the current scenarios. Our team is friendly yet professional to provide new and innovative designs.

Partitions & False Ceiling Contracting

Partitions & False Ceiling are very popular in commercial sectors. These provide the concealment of untidy wires. By concealing wires, space becomes more visually appealing. Besides providing insulation, this type of ceiling also absorbs sound and balances acoustics. We offer custom designs according to client requirements and specifications.

Glass / Aluminum Installation & Maintenance

Glass is now becoming more attractive and a good alternative to solid partitions in terms of price, design, etc. It provides the best transformation. Using glass instead of solid materials will provide us with more natural light. And also, it will enhance the aesthetic of a building.

We have a perfect network of manpower to assist you in your work.

Uniform Tailoring & Embroidery Division

MBR GARMENTS WORKSHOP LLC: Another feather in the cap of Blue Diamond Group of Companies.
